

DEPARTMENT OF THE AIR FORCE
AIR FORCE RESERVE OFFICER TRAINING CORPS (AETC)
DETACHMENT 645, THE OHIO STATE UNIVERSITY

Dear Colonel Carney,

21 April, 2017

Thank you for continuously supporting Detachment 645 and, specifically, for the scholarship award. I consider it a privilege to attend such a great university and be a part of such a high achieving Detachment, and acknowledge that none of it would be possible without a legacy born by those before us. Isaac Newton had said, "If I have seen further than others, it is by standing upon the shoulders of giants," and it is certainly upon the foundation you built that we are able to continue our success.

I am consistently reminded how tightly knit the Detachment 645 community is, whether it is talking with Alumni during football tailgates or working alongside volunteers at the 1DK endurance marathon. The Alumni Society serves as a perpetual reminder of how privileged we are to serve as we do - and that service does not end once the uniform is removed, but transitions into another form. Thank you for your continual service, I am humbled and grateful to have received your scholarship award.

Very Respectfully,

A handwritten signature in cursive script, appearing to read "Cristian S. Turain".
